
A mature mind and a calm attitude don't come automatically with age

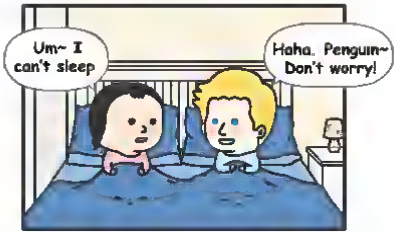
After we finished the exam,...

I went to the town centre with my friends to enjoy the moment that all of the exams were over

And I've not changed at all.

And it made me think after
I went back home

Exams are the same
whatever age you are.



My 1 year lang college course had finished and the time far the exam had come.

Well, there was no calm Penguin at all that day.

I had an exam.
